

The MA DSRIP TA Program

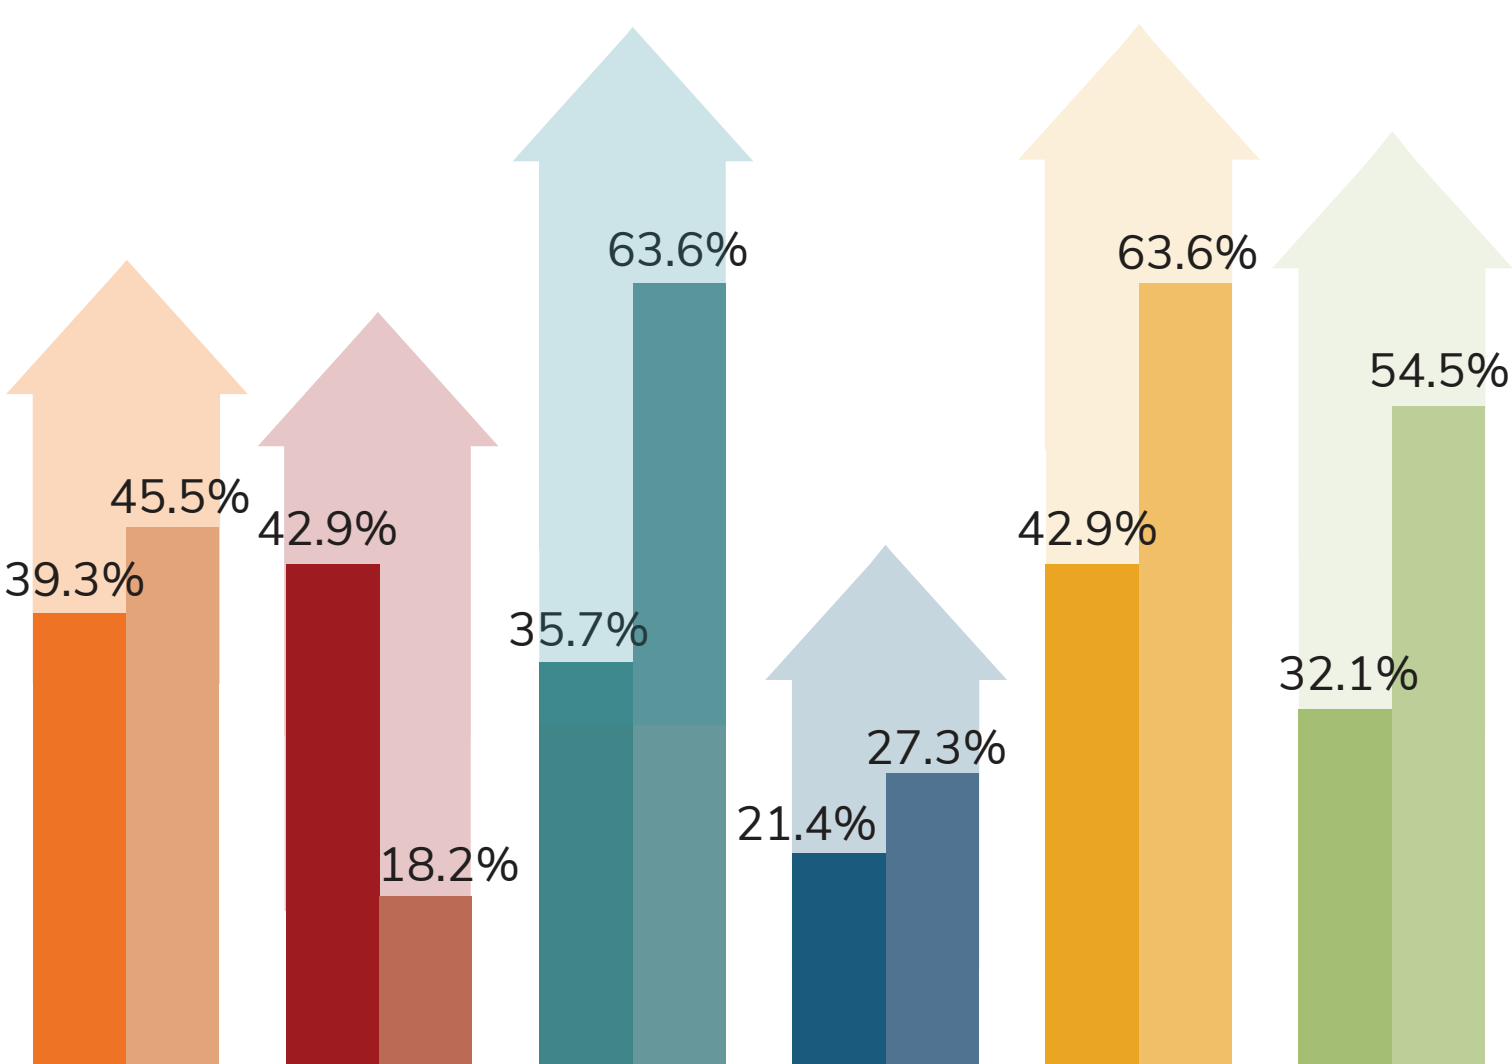

The MA DSRIP TA Program was created by MassHealth, the Commonwealth of Massachusetts' Medicaid and Children's Health Insurance Program, to support and build the capacity of Accountable Care Organizations, Community Partners, and Community Service Agencies. The TA Program launched in September 2018 as part of a statewide effort to improve the health outcomes and experiences of MassHealth members. The information in this infographic reflects data through March 15, 2019.

TA Applications - How are ACOs and CPs thinking about TA resources to build strong, effective organizations?

The **darker bar** represents the proportion of ACO TA applications that seek to advance a particular Competency Area; the **lighter bar** represents the proportion of CP TA applications that seek to advance a particular Competency Area.

6 Competency Areas

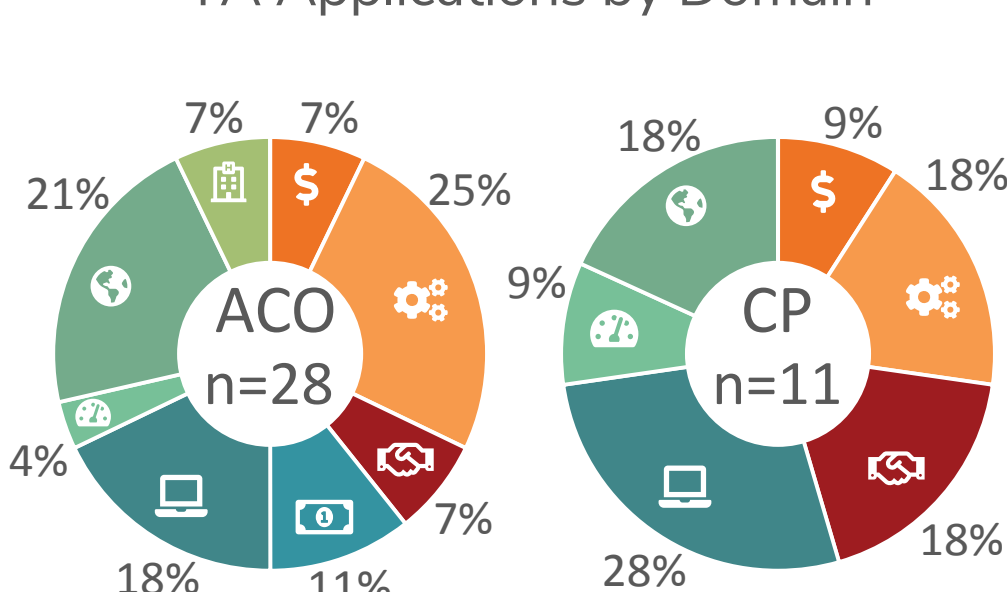

- Respect, understand, and engage MassHealth members
- Honor, enlist, and develop provider and care team insights and capabilities
- Access, apply, and exchange data across all entities involved in MassHealth member wellness and care
- Develop and implement financial models that promote provider and staff buy-in and advance the achievement of quality benchmarks, appropriate utilization of care, and long-term organizational sustainability
- Provide coordinated care and/or complex care management that is highly responsive to MassHealth member needs and preferences
- Actively develop and maintain a foundation of, and disseminate up-to-date knowledge in all areas relevant to building and running a high performing, sustainable MassHealth ACO or CP

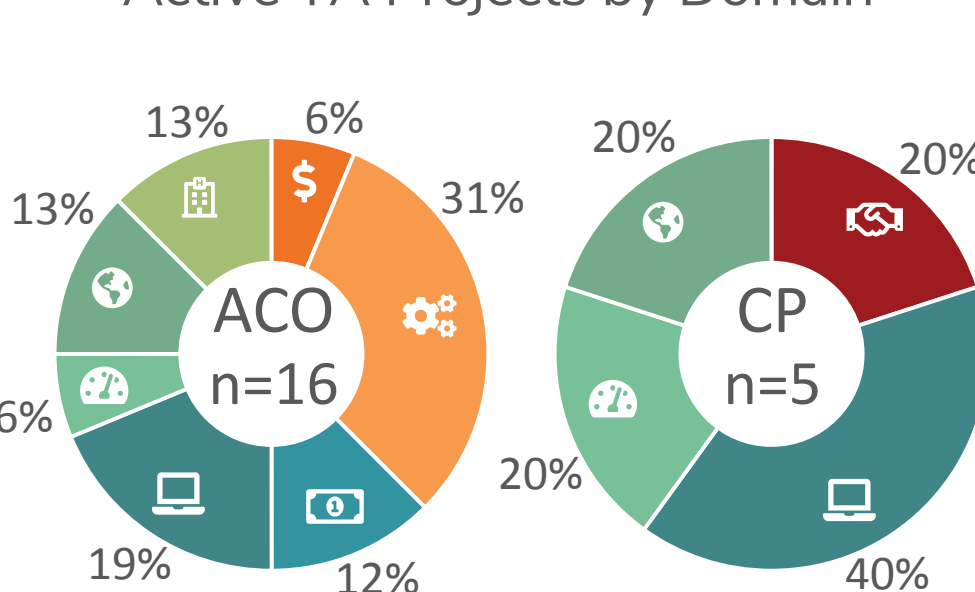

Competency Areas outline the key spaces within which ACOs and CPs should continually develop their capabilities in order to improve experience and health outcomes while lowering total cost of care for MassHealth members. A single TA project may build ACO or CP capabilities within multiple Competency Areas.

ACO and CP TA Projects

TA Applications by Domain

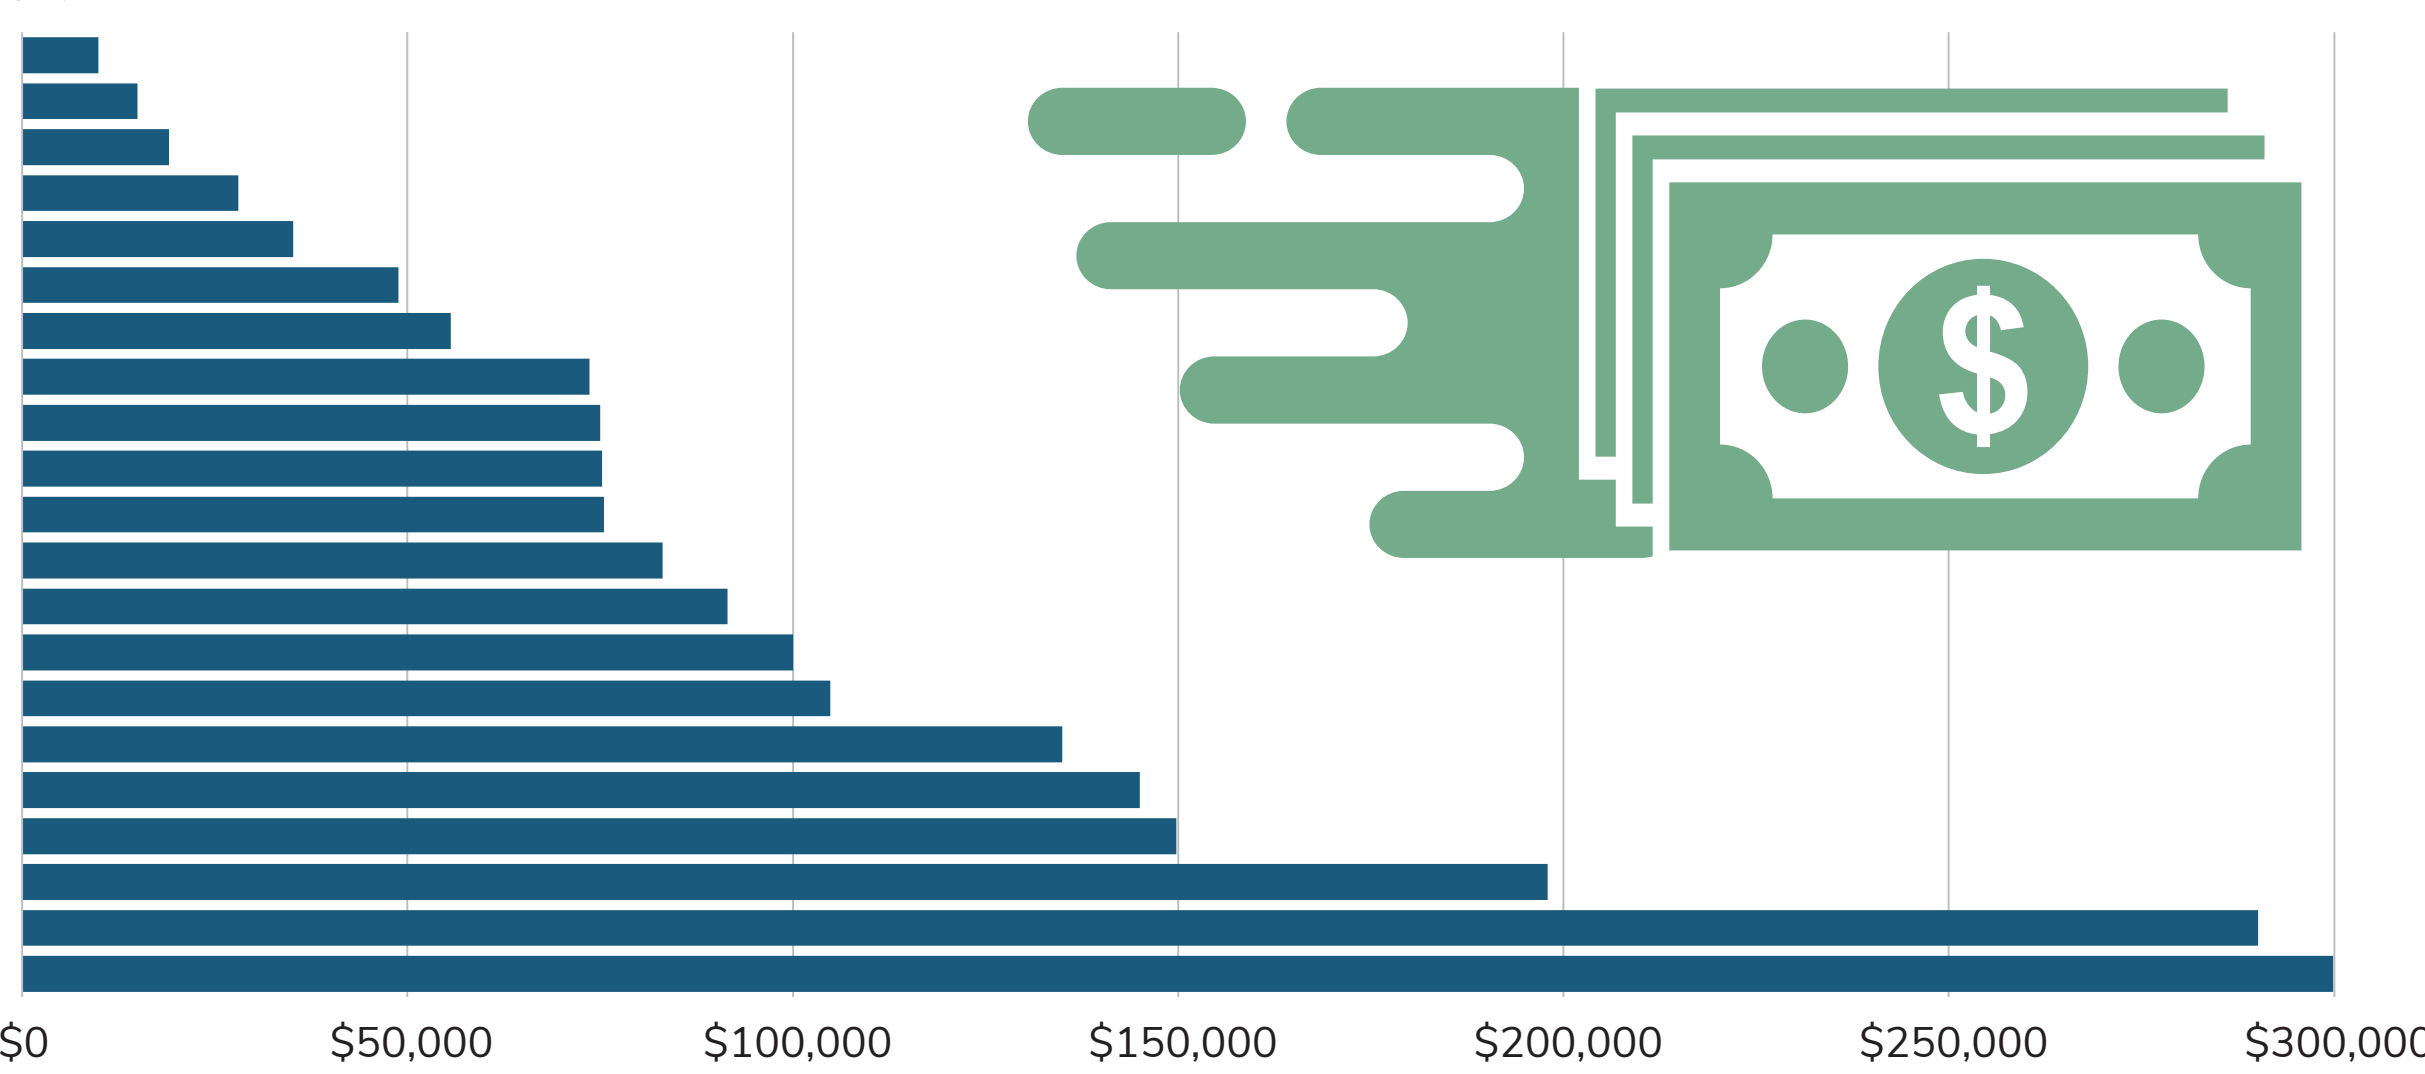

Active TA Projects by Domain

There are **9 TA Domains** that reflect the areas of TA that MassHealth ACOs and CPs identified as TA priority areas during their first year of implementation.

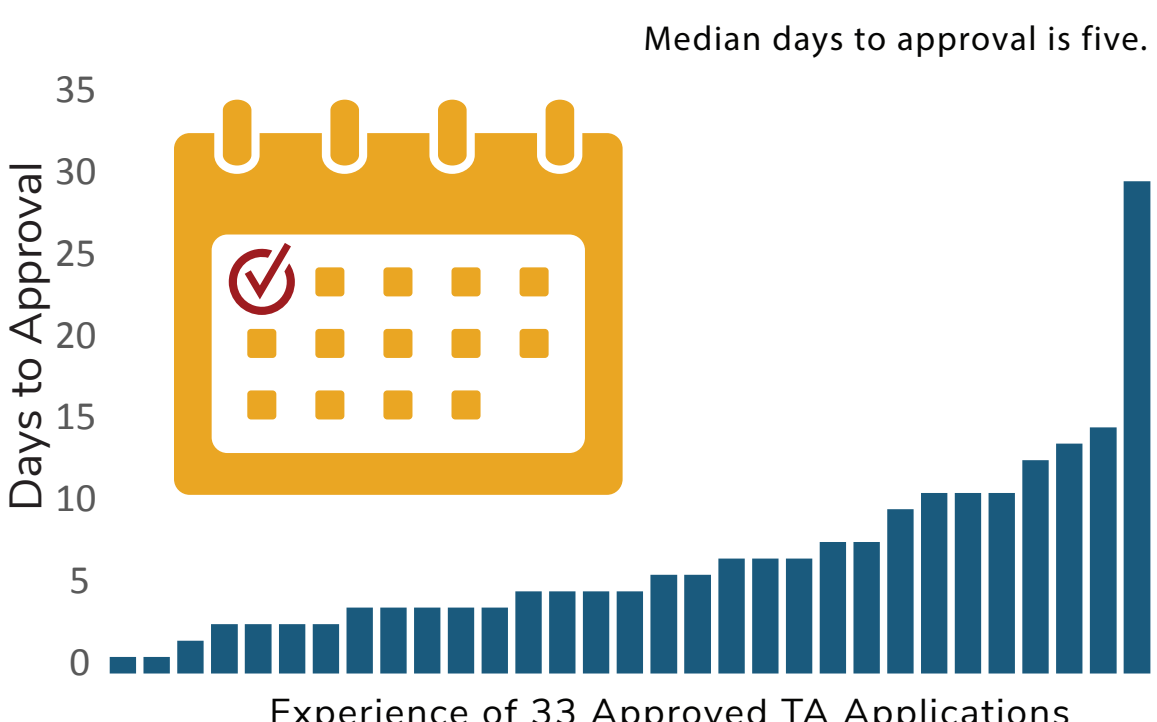

Total TA Card Funds Spent on TA Projects

ACO and CP TA projects range in size and scope, with the largest TA project budget at \$299,858 and the smallest at \$9,914.

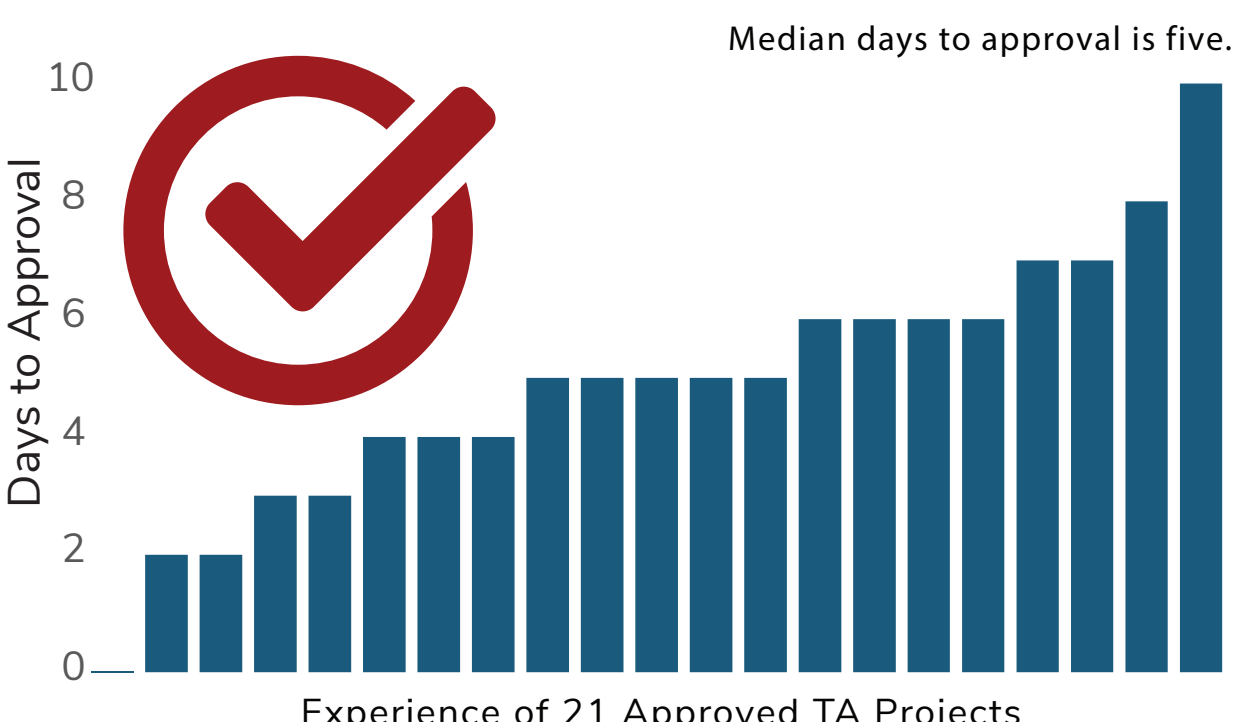

A Window Into the Process: TA Application Approval

ACOs and CPs submit a brief TA project application through the TA Marketplace to expedite approval.

A Window Into the Process: SOW and Budget Approval

Once a TA project application is approved, the ACO or CP works with their preferred TA Vendor to develop a SOW and budget. Rapid review and approval takes place to ensure efficient project start-up.

Vendors Engaged in MA DSRIP TA Projects

Currently, 15 unique TA Vendors (32% of the TA Vendor catalog) are working on the 21 active TA projects with ACOs and CPs.

Vendors with Character - Fun Facts!

You know vendors bring talent, experience, and passion for this work, but did you know that...

- One Built a System for the NBA for Highly Optimized Game Schedules
- One Has An A+ Rating in Above the Law's Gender Diversity Index
- Some Have Office Games to Relax and Build Collaboration and Cohesiveness
- One Has Chocolate Available in the Lunchroom!
- Some Are Among the Top Women Owned Businesses for Financial Performance
- Some Support Charitable Efforts and Regularly Make Donations to Food Banks

Flexible Learning

ACOs and CPs can continue their learning at their convenience through the Resources & Training section of the TA Marketplace. Organized and easy to access webinars, online learning, and other resources are always available!
