# Shared Learning Updates from the MA DSRIP TA Program

The Massachusetts (MA) DSRIP Technical Assistance (TA) Program launched two years ago in September 2018. Since then, ACOs and CPs have been busy working with TA Vendors on a variety of interesting TA Projects across nine domains to help build their capacity.

- Do you want to learn from your colleagues at other ACOs and CPs about their TA Project experience?
- Are you interested in sharing insights and discussing challenges related to your TA Project?
- Are you looking for inspiration about how to use your TA Card to build capacity and address your organization's goals in 2021?

This event is for you! Register now for the **TA Domain Peer-to-Peer Discussion Groups on November 19, 2020** to participate in small, interactive discussion groups with your peers at ACOs and CPs. Visit the Shared Learning Event page for more details and to register.

The MA DSRIP TA Program will be sending a series of three weekly emails for ACOs and CPs leading up to the **TA Domain Peer-to-Peer Discussion Groups.** Each email will highlight TA Program activity to date.
