TA Domain Peer-to-Peer Discussion Groups: [Register Now!](#)

Are you looking for new strategies to use your TA Card to make progress on your organization's goals in 2021? Would you like to share your experience working on a TA Project with colleagues from other ACOs and CPs? Want to hear how colleagues addressed their TA Project challenges or ask questions about yours? This is your opportunity! [Register](#) now for the upcoming [TA Domain Peer-to-Peer Discussion Groups](#) on **November 19, 2020**.

Highlights from the MA DSRIP TA Program: What do TA Projects focus on the most?

ACOs and CPs are collaborating with [TA Vendors](#) on TA Projects across all [nine domains](#) and several [competency areas](#). Projects include topics such as evaluation of social determinants of health screening processes, multicultural outreach strategies to MassHealth members, and resources and training to support a diverse workforce. Almost a quarter of CP projects so far have been in the population health management domain. For ACOs, projects focused on care coordination are the most popular. Check out the breakdown of projects by TA Domain (data as of September 30th, 2020.)

TA Projects by Domain

For more information about TA Projects by domain, please visit the TA Marketplace website for a full list of [TA Project descriptions](#).

What ACOs and CPs Are Saying About the TA Program

“Our TA Vendor provided education and expertise in data sources and analytics, risk stratification, risk adjustment and health equity, and proposed analytics to advance value proposition conversations with ACOs.”

–MassHealth CP

“Without access to TA funds, it would be impossible to support the necessary transformation required to address the needs of the Medicaid population in our community.”

– MassHealth ACO
