Shared Learning Updates   November 12, 2020

TA Domain Peer-to-Peer Discussion Groups:
Register Now!

We hope you had a chance to register for the TA Domain Peer-to-Peer Discussion Groups **on November 19, 2020.** Join your ACO and CP colleagues to share TA Project experiences, insights, challenges, and outcomes and ask questions about how your colleagues successfully navigated their TA Projects. We hope these discussions will help inspire new strategies for progressing towards your organization's goals for using your TA Card.

Highlights from the MA DSRIP TA Program: Improvements, Solutions and Products

What ACOs and CPs Are Saying About the TA Program

"Our ACO was able to reduce medical spending and readmissions via a TA project to develop a process by which care teams can identify patients at high risk for readmission and take appropriate steps to determine an approach for the method of treatment and care coordination for the best possible outcome."

– MassHealth ACO

"The TA Vendor's support has been very valuable in fostering the cultural competency and communication capacities of our field team and in strengthening overall program effectiveness."

– MassHealth CP

This is the final Shared Learning Update

We're looking forward to seeing you next week at the TA Domain Peer-to-Peer Discussion Groups **on November 19, 2020.** There's still time to register! Visit the Shared Learning Event page to learn more.
